II. Required documents:

1. Application for appointment to the position.
2. Curriculum vitae.
3. Summary of professional accomplishments
4. Education confirmed ownership:
Ph.D. in **Environmental engineering** (a copy of the diploma)

5. Professional experience in the field

Conducting research confirmed by:

- List of publications scientific and technical reports, included minimum 3 items from list A (min. 20 items)
- experience of working connected with meteorology and climatology (min. 7 years)

Be a part of research teams confirmed by:

- a list of research indicating the role of candidate in these works (min. 10 items)
- work experience directly associated with scientific research (min. 7 items).

Environmental engineering confirmed by:

- a list of research indicating the role of candidate in these works (min. 3 items)
- work experience directly associated with research (min. 3 years).

Geography, confirmed by:

- List of documents related to the specialization climatology, meteorology with the indication the role of candidate in these works (min. 15 items) in the field:
 - determining the impact of predicted climate changes on: water cycle of selected river basins, intensity of water erosion processes, quality of flowing waters;
 - • calibration, verification and validation of environmental models of water quality;
 - • assessment of the quality of environmental mathematical models using statistical tools;
 - • analysis of the impact of land use types on the quality of surface waters;
 - • scenario analyzes of climate change and land use in river basins and determination of their impact on surface water quality;
 - • studies on the temporal-spatial distribution and dynamics of the propagation of biogenic compounds in surface waters;
 - • analysis of the impact of agricultural management methods in the basin on pollution in surface waters;
- Work experience directly associated with research on the field of environmental engineering (min. 3 years).

6. The professional qualifications confirmed by:

- work experience in positions requiring skills to work in teams (min. 5 years);
- certificate completed trainings, practices, etc;
- recommendation letter

7. Knowledge of a foreign language;

- Demonstrate knowledge of a modern foreign language in speech and writing and fluent knowledge of the Polish language (concerns foreigners)

8. Signed information clause.

III. The competition will be conducted in the form of an interview, during which the candidate knowledge **environmental engineering** in the field of environmental engineering, water management and water quality discipline will be checked.

IV. Documents should be submitted not later than **21st June till 12:00 a.m.** to the Secretary Scientific Secretary of the Institute of Meteorology and Water Management - National Research Institute, 61 Podleśna str., 01-673 Warszawa, POLAND, (in the case of postal

delivery Secretary receiving stamp date decides) with a note on the envelope „*Konkurs na stanowisko adiunkta 3/2019*”.
